Healthcare Project Management

ON DEMAND OR INSTRUCTOR-LED

Fundamentals Basics 1

i

COACH

Anita Brisson has over 20 years of extensive hands-on experience in project management, administering new business projects, contracts and multi-million dollar progressive programs within telecom, data management, IT, construction, health care and aerospace industries. Anita has demonstrated a unique talent for problem solving in using her Lean Six Sigma Black Belt certification and had become the "go-to" person for troubleshooting within any program. Her strong and dynamic leadership skills bring cohesiveness, clarity, and mutual sense of purpose to any multi-discipline team, which is imperative for project success.

WHY SHOULD YOU ATTEND?

This training enables you to develop and certify the technical knowledge and skills of Project Management for Healthcare.

Our sessions provide a hands-on virtual experience on a trusted platform. Learn in a Live online course or On-Demand whichever is best suited for your needs. You will learn how to use the tools and how to apply them to real projects right away in your organization. I believe one learns through practice and support.

The course is characterized by experiential learning, skill-based training, practical statistics, 1:1 attention, and immediately usable job aides.

These sessions will provide students with a basic understanding of the Project Management Body of Knowledge (PMBOK®) as a defined by the Project Management Institute (PMI).

WHO IS THIS TRAINING FOR?

- Managers or consultants involved with and committed to project & improvements in Healthcare.
- Individuals like Administrative Assistants, Quality Administrators, Health Policy Specialists, Public Health Dieticians/Nutritionists, Research/Business Analysts, Registered Nurses and Physicians from organizations across the health sector including health authorities, hospitals, addictions and mental health, long term care, public, community health and youth services.

CURRICULUM

Healthcare Project Management Fundamentals - Basics 1

On Demand: 2 hours
Cost: $345.00

Instructor Led: Contact us for Team Training & Rates

Earn: 1 PDU for every hour of this session

This online course covers a basic introduction of project management concepts and methodology along with detailed discussions on how and why to complete a project charter. The content is tailored to new project managers, team and technical leads, team members and those with little or no formal PM training.

In the live sessions, participants will engage in polling questions and work in breakout groups where they will apply new project charter skills immediately. The emphasis throughout in any session is on making project management easy to understand and apply in healthcare.

Learning Outcomes:

Upon successful completion of this course, you will be able to:

- Define the problem and establish specific and measurable targets
- Able to complete a project charter based on business strategies and triple constraint
- Carry out effective project meetings
- Understand fundamentals of Project Management

PROGRAM BENEFITS?

Your organization's operations will benefit from your ability to:

- **Execute better:** Project Management links strategic plans to operational improvements to create efficiencies in healthcare.

- **Build loyalty:** Project Management helps you improve your operations and/ or patient safety.

- **Create greater returns** by lowering operating costs and delivering services faster. Achieve higher organization and patient satisfaction through operational excellence.

REMARKABLE RESULTS

Take your organization to the next level of productivity and profitability with Anita Brisson's Project Management sessions.

Our programs have provided Healthcare organizations large and small with the tools and techniques needed to dramatically improve their processes and financial performance.

ACHIEVEMENTS
