## Top Shopper of the Month

# Congratulations Debrose Stephens

Ms. Stephens saved **\$2876.69** on supplies!

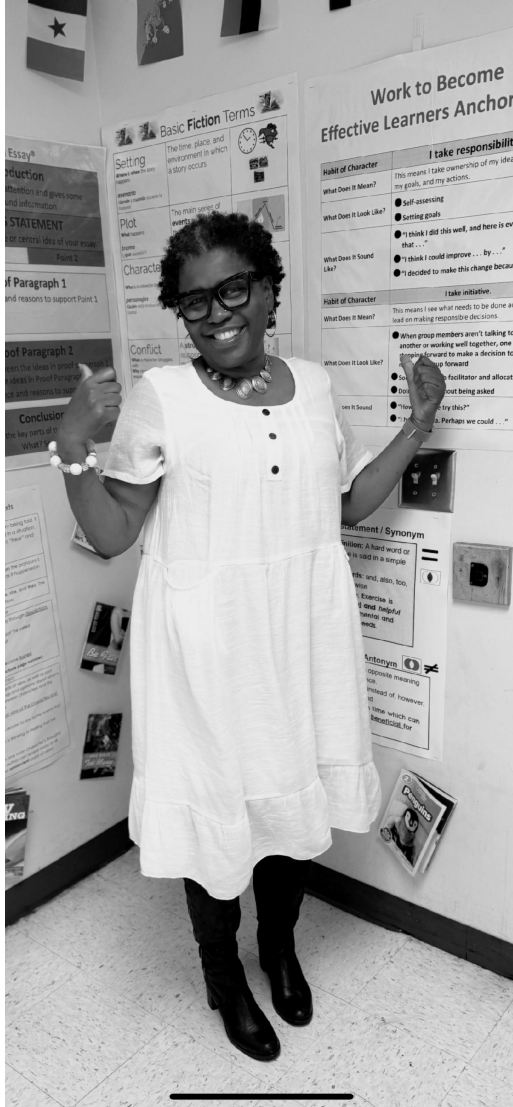

The impact Classroom Central has had on my classroom, students, families, siblings and me.

There is a saying that "it takes a village to raise a child", but I will go further and say that it takes a supportive village with the mindset of empowering a child that will eventually lead to the academic, cognitive, socio-emotional, financial, and environmental growth of not only the child but the entire village!

Classroom Central is this supportive village and my students, siblings, families (extended, nuclear etc.), along with yours truly are all children of this village, who "dine" monthly at their tables laden with "food" that builds our thought processes, brain power, and allows us to dream big as we interact with resources that otherwise we could only dream of having due to financial constraints. My students both past and present are still "feasting" from CC's table, as I find it impossible to wean the past ones and their families. It takes a supporting village. Classroom Central is my supporting village,

and with their resources, together we are changing students' lives and academic outcomes: a bag of resources at a time.
