## Top Shopper of the Month

# Congratulations Lisa Dickens-Wright

Ms. Dickens-Wright saved **\$2,017.13** on supplies!

Classroom Central has made a significant impact on my classroom by providing essential supplies that enhance student engagement and learning. These free resources have allowed me to focus more on teaching rather than worrying about material costs. I highly encourage other teachers to take advantage of this incredible service, as it not only helps reduce classroom expenses but also creates a more enriching environment for students to thrive in.

In the picture, my students are using supplies from Classroom Central to make geometric shapes as we study transformations (slide, flip and turn).
