

Timelines

Feasgar math!

I hope your day is going well. It's getting colder and colder up here in Maine. They say we're in for 6-8 inches of snow next Monday. ☐

As with anything in life, we all learn Gaelic according to our own timelines. Some are longer than others; some are shorter. Sometimes it takes more time for certain concepts to become clear or certain words to become natural - and sometimes we just 'get it' instantly. **It really doesn't help to compare ourselves to others because they are on a different road than we are.**

If some aspect of Gaelic is really frustrating and/or just not sinking in, don't worry! You're just working along your timeline. It will become natural one day.

The main thing is to just keep practicing and acquiring more and more Gaelic. Keep travelling along your timeline. Every step counts and every effort lands somewhere.

Wishing you a great rest of the day.
