

Lean Healthcare Certifications

ON DEMAND OR INSTRUCTOR-LED

WHITE + YELLOW
BELTS

COACH

Anita Brisson has over 20 years of extensive hands-on experience in project management, administering new business projects, contracts and multi-million dollar progressive programs within telecom, data management, IT, construction, health care and aerospace industries. Anita has demonstrated a unique talent for problem solving in using her Lean Six Sigma Black Belt certification and had become the “go-to” person for troubleshooting within any program. Her strong and dynamic leadership skills bring cohesiveness, clarity, and mutual sense of purpose to any multi-discipline team, which is imperative for project success.

WHY SHOULD YOU ATTEND?

This training enables you to develop and certify the technical knowledge and skills of a Lean improvements.

Our sessions provide a hands-on virtual experience on a trusted platform. Learn in a LIVE session or on Demand that offers an end-to-end solution for all your training needs. The format combines the instruction of the tools and allows you to apply to real projects right away in your work environment. I believe one learns through practice and support.

The course is characterized by experiential learning, skill-based training, practical statistics, 1:1 attention, and immediately usable job aides.

WHO IS THIS TRAINING FOR?

- Managers or consultants involved with and committed to project & improvements.
- Individuals like Administrative Assistants, Quality Administrators, Health Policy Specialists, Public Health Dieticians/Nutritionists, Research/Business Analysts, Registered Nurses and Physicians from organizations across the health sector including health authorities, hospitals, addictions and mental health, long term care, public, community health and youth services.

CURRICULUM

Lean Healthcare White + Yellow Belt Certification

On Demand: 4 hours

Cost: \$860.00

Instructor Led: [Contact Us for Team Training & Rates](#)

Earn: 1 PDU for every hour of this session

This course covers the basic introduction of Lean improvement concepts and methodology along with detailed discussions on how and why to complete an A3 planning document. The content is tailored to new Lean enthusiasts, quality teams and leads, team members and those with little or no formal training. In the second half of the course, you will learn how and when to integrate tools and techniques for improvement. You will work on mock exercises to gain knowledge and become more comfortable with the tools. The content is tailored to new Lean enthusiasts, quality teams and leads, team members and those with white belt training.

The sessions allow participants to apply their new quality improvement skills immediately. In the live sessions, participants will engage in polling questions and work in breakout groups. The emphasis throughout the session is on making improvements easy to understand and apply in the health sector.

Demo videos are provided to help you become more comfortable in working with the Lean tools.

Learning Outcomes:

Upon successful completion of this course, you will be able to:

- Analyze what is Lean and the goals of Lean.
- Recognize Projects vs Improvements.
- Comprehend when to apply Lean
- Practice building an A3.
- Review what is Lean and the goals of Lean.
- Practice through most used Lean tools such as Pareto, Cause and Effect & Process Mapping (Value Stream Mapping), 5Ss, 5 whys, SIPOC, Spaghetti diagram
- Comprehend when to use such Lean tools.
