Free course: A Practical Guide to Managing Nappy Rash

Complete for free & claim CPD using this QR code

FREE ONLINE COURSE

Nappy rash or napkin eruptions can be distressing for infants and their carers, making knowledge of assessment, diagnosis, management and therapeutic options to prevent, manage and treat nappy rash, all the more important. Using case study examples, this presentation will provide an overview of the condition, including common misperceptions and diagnostic challenges; and provide prevention and management strategies. Further potential causes will be discussed as well as when to refer.

Are you looking for flexible, high-quality online learning for your CPD?

 Evidence-based learning

 Document your CPD learning
