

ADHD and Autism Diagnosis

In the UK and Australia, waiting times for diagnoses can be as long as two years. Private assessments are often financially inaccessible and can have complex pricing structures. RTN provides an affordable and speedy assessment process to ensure Neurodivergent people and their networks can receive the right support.

RTN cares. They Promise:

A full diagnostic assessment by a Chartered Clinical Psychologist

To provide you with a detailed report that you can share with schools, GPs, employers or any other relevant parties

To complete your assessment within 6 weeks of booking.

A mental health assessment by a registered Psychotherapist.

How it works:

- Book a diagnosis via the RTN website
- Pre-screening questionnaires
- Online mental health assessment
- Online diagnostic interview
- A full diagnostic report
- Online post-diagnosis follow up appointment

Price?

RTN is confident to show prices up front because they know that money matters to you:

Full Autism Diagnosis

£895 | AU\$1500 | \$US 1200

Full ADHD Diagnosis

£795 | AU\$1300 | \$US 1000
