

This Masterclass is made of three elements:

### Element 1: A 15 min video

Please, please watch this **15 min video** before coming on the webinars. It introduces key ideas and gives a couple of short tasks that we will take further on the webinar.

<https://youtu.be/5ZLfzsVC3xI>

### Element 2: Two 90-min webinars

These let you ask questions and learn from each other.

To keep interaction high, we hold the Masterclasses on Zoom and use breakout rooms, Padlet, Mentimeter and PowerPoint.

### Unit 3: Five follow-up emails

These extend the Masterclass into the workplace. The first email contains a pdf of key slides and the following emails arrive at weekly intervals, nudging you to keep going!

BEFORE the webinar please:

- 1) Watch the pre-course webinar <https://youtu.be/5ZLfzsVC3xI>
- 2) Write down a few notes on a research idea, project or fellowship application that you would like to get funded.
- 3) Find an application form, or guidance notes associated with an application, from a funding organization that gives money to people in your area of work. This could be printed out, on a laptop or an online link

### Joining Zoom

Masterclasses are great places to connect and work together. To help this occur please:

- 1) Enter the waiting room 3-5 minutes before the start time.
- 2) Have your camera on, so that we can engage with each other as fully as possible.
- 3) Bring a glass of water or a fresh cup of coffee!

We look forward to working with you.
