

Transcript: Welcome to the Virtuous Academy!

Before you get started, let's take a look at what you can expect:

1. What will the lessons be like?

You won't find any boring chalkboards or stacks of books in our Academy. Most lessons feature video tutorials in Virtuous. We'll walk you through using Virtuous step-by-step.

2. How many courses are there?

Currently, we have 7 product-based courses. We also have a featured course for Responsive Fundraising. But we are always updating the content and working to add more!

3. Which certification should I get?

You don't need multiple certificates. If you want to learn it all, get the Virtuous Administrator Certification. That will cover everything there is to know about working in Virtuous. The other certifications—Finance, Marketing, and Fundraising—are smaller subsets of the same information, meant for specific staff positions.

4. Why does Virtuous look different in some videos?

Our product team is always working to improve Virtuous. And that means our training content is continually being updated, too. If there is a difference, we will make sure the training videos get updated as quickly as possible. We promise.

5. What happens after I get my certification?

First, show off your certification on LinkedIn! Then, remember that you can always return to brush up on your skills or learn new ones as we add new features.

There's only one question left:

Are you ready to get started?

Brought to you by Virtuous.
