

The Opioid Public Health Crisis

Course Overview

The Opioid Public Health Crisis (OPHC) course will provide you with foundational knowledge on this nationwide health crisis and the solutions and actions to take to reduce the epidemic's effect.

This course is for individuals, parents, healthcare professionals and groups and organizations who are working to prevent and reduce the effects of the opioid public health crisis. This is ideal for groups who serve individuals at risk for an opioid use disorder/addiction or overdose.

What People Are Saying

"As a public health educator, this course gave me a fantastic overall view of addiction, the opioid crisis (both historically and currently), and how to help."

Discuss the opioid public health crisis - historical, current conditions and trends.

Explain how the health crisis developed, the contributors and risk factors.

Identify the multi-faceted solutions model that states, and communities are applying to reduce the effects of the health crisis and the actions an individual / professional can take to improve the outcomes.

"This helped me understand what I can personally do to help my family and others and that the solutions work when all are used, and everyone works together."

The Opioid Public Health Crisis (OPHC)
