

School Naloxone Opioid Overdose Training

How to Recognize and Respond to
an Opioid Overdose

Course Overview

Drug overdose is the leading cause of accidental death in the U.S. with nearly 107,000 lives lost in 2021. For the first time, overdose deaths exceeded 100,000 in 2021 - increasing 51% since 2019 with overdose deaths for youth/young adults aged 15-24 increasing 55%.

Developed for school professionals, this course provides training on how to recognize and respond to an opioid overdose. Participants will learn how to recognize the signs of an opioid overdose, how to administer the opioid overdose reversal drug naloxone, and what to expect after administration. In addition, the course provides a review of the opioid public health crisis conditions and discusses some myths surrounding naloxone.

What People Are Saying

"It was an excellent example and reminder of how opioid addiction can impact anyone, even those you'd least expect. We, as healthcare professionals, need to have a drastic mindset change. We need to realize this seriously affects anyone from any walk of life, and we need to take steps to combat this growing issue" - School Nurse

 - A. The Need for an Opioid Overdose School Emergency Response Plan
 - B. Perspective: Amy
 - C. Assess and Identify the Signs of an Opioid Overdose
 - D. Naloxone Administration – Reversing an Opioid Overdose
 - E. Intranasal Naloxone Demonstration
 - F. Integrate Opioid Overdose Response Into School

About Overdose Lifeline

Overdose Lifeline (ODL) is a 501(c) (3) nonprofit dedicated to helping individuals, families and communities affected by the disease of addiction / substance use disorder. ODL's naloxone training has helped more than 400,000 people in 30+ U.S. states learn how to recognize and respond to an opioid overdose. The School Naloxone Opioid Overdose Training has been specifically developed to assist schools in overdose prevention and response.

Recommended Youth-Focused Program

This is Not About Drugs (TINAD) is a universal program that addresses youth substance use with an emphasis on opioids (prescription pain medication, fentanyl and heroin). Used by school and community partners in 36+ U.S. states to prevent opioid substance use, educate on the risks of fentanyl, how to recognize opioid overdose symptoms, the basics of the opioid reversal drug naloxone (NARCAN), the importance of calling 911, and more.

PreVenture is an evidence-based prevention program that uses personality targeted interventions to promote mental health and skill development and delay youth substance use. PreVenture incorporates motivational interviewing and cognitive behavioral therapy (CBT) to help youth better understand and manage the aspects of their personalities associated with risky behaviors and substance use.

Online CE Course

\$30/person

Online, self-paced course

Onsite and Virtual Training

Onsite and virtual training available for groups of five or more. Contact us for more information and a custom quote.

Trainer Program

Get certified to deliver the course within your community.

Program materials are provided for onsite and virtual / webinar settings. Includes: Presentation PowerPoint with trainer notes and complete script. Multiple versions for different training lengths and customizable. Attendee pre-post survey, handouts, breakout activities, poll questions, certificate of attendance, customizable flyers, and more.

Training Fee: \$225/person

One prerequisite course, program training, and trainer's kit

Individual License Fee: \$200/person

Access for one trainer. Annual renewal.

Group Program License Fee: \$400/per group

Access for two or more trainers within an organization. Annual renewal.

Examples:

\$425 for one trainer (\$225 + \$200)

\$1,075 for three trainers (\$225 X 3 + \$400)
