The information on this website and within PREMED Ltd's online learning platform is provided for general educational and continuing professional development (CPD) purposes. It is intended for individuals working in clinical, patient-facing, or healthcare-support roles.

PREMED Ltd does not provide medical advice, clinical directives, or operational guidance.

Nothing accessed through this website should be relied upon as a substitute for:

- clinical judgement
- employer or service protocols
- national guidelines
- mandatory training
- appropriate supervision or governance

While PREMED Ltd takes reasonable care to ensure that information was accurate and evidence-based at the time of publication, we do not guarantee that:

- all content is current
- all content is complete or error-free
- all material is applicable to every clinical scenario

Users must verify relevant local and national guidance before applying any information in practice.

PREMED Ltd accepts no responsibility for any clinical decisions, actions, outcomes, or incidents arising from reliance on information obtained via this website or our courses.

External links or references are provided for convenience only. PREMED Ltd does not endorse and is not responsible for the accuracy or content of external sites.

Completion of PREMED courses or access to CPD materials does not constitute a professional qualification, does not confirm competence, and does not authorise independent clinical practice.
